SUMMARY

Motivated Software Developer, skilled in web and mobile application development using JavaScript, React, C#, .NET, Java, Kotlin, SQL, and REST APIs. Strong understanding of Agile methodologies, SDLC, software testing, debugging, and version control. Passionate about developing reliable software solutions, solving technical problems, and collaborating effectively within teams.

PROJECTS

E-COMMERCE WEBSITE

- Developed and deployed a responsive e-commerce platform.
- Integrated payment and delivery APIs to automate business processes.
- Participated in requirements analysis, development, testing, and deployment activities.
- Performed debugging and issue resolution to improve application reliability.
 - Applied version control practices using Git and GitHub.
- Produced technical documentation and maintained project records.

ANDROID APPLICATION

- Developed a location-based mobile application displaying bird observation hotspots and user location on an interactive map.
 - Integrated external APIs to retrieve and display real-time bird observation data.
- Implemented application enhancements and resolved defects throughout development.
 - Conducted testing and debugging to improve software quality and performance.
 - Applied Agile development principles during project execution.

EDUCATION

Qualification - Diploma in Software Development

Qualification - Advanced Diploma in Application Development

CERTIFICATIONS

Diploma in Software Development - IIE Rosebank College

Advanced Diploma in Application Development - IIE Rosebank College

Certificate in Full-Stack Development - FNB App Academy

SKILLS

Soft Skills - Problem-solving, teamwork, communication, adaptability, and attention to detail

Programming - HTML5, CSS3, JSON, JavaScript, C#, TypeScript, Java, React

Technologies - Firebase, REST APIs, .NET, Node.js, MySQL
